

**Amendments to the Claims**

Please cancel claims 1-5, 7-11, 15-17, 19 and 23-26. Please amend claims 12 and 18. The currently pending claims after amendment are listed below.

1-11. (Cancelled)

12. (Currently Amended) A method of upgrading a computer program on a computer system,  
the computer program including a script processor, the method comprising:  
creating an upgrade object associated with the computer program, the upgrade object  
including an instruction set adapted for use by the script processor to upgrade the computer  
program; and  
transmitting the upgrade object to the computer system; and  
instructing an end user to execute the instruction set with the script processor;  
wherein the instruction set comprises a script and wherein the script processor is adapted to  
compile and execute the script.

13. (Original) The method of claim 12, wherein the upgrade object presents the end user with  
instructions to perform a task.

14. (Original) The method of claim 13, wherein the upgrade object prompts the end user to  
indicate that the task has been performed.

15-17. (Cancelled)

1 18. (Currently Amended) A method of installing a computer program into an instruction  
2 processing environment on a computer system, the instruction processing environment including  
3 an instruction processing module, the method comprising:  
4 receiving an installation object associated with the computer program, the installation  
5 object including an instruction set adapted for use by the instruction processing module to  
6 install the computer program into the instruction processing environment; and  
7 executing the instruction set with the instruction processing module;  
8 wherein the instruction set comprises a script and wherein the instruction processing  
9 module is adapted to compile and execute the script.

19. (Cancelled)

1 20. (Previously Presented) The method of claim 18, wherein the installation object is  
2 associated with one or more prerequisites; and further comprising determining if the one or more  
3 prerequisites have been met.

1 21. (Original) The method of claim 18, further comprising reporting that the instruction set  
2 has been executed.

1 22. (Previously Presented) The method of claim 18, wherein the installation object comprises  
2 a script suitable for transmission by electronic mail.

23-26. (Cancelled)
